### GPA (Grade Point Average)

The Grade Point Average is the educational achievements of students on the program selected for the academic period. This is a ratio of the sum of products of credit hours on the digital equivalent of points of the final assessment on discipline to the total amount of credits in the current period of study.

### Course

The complex of requirements and standards established by these Rules and other internal documents of the University, in respect of the educational process.

### Advisor

Teacher acting as a consultant for Academic Affairs. He assists to students enrolled in the relevant specialty. He helps in choosing an educational trajectory and mastering of an educational program during the entire learning.

## 2 General provisions

3.1 The University provides study of specialists in higher education programs (bachelor) on credit education. The main objective of credit education is to develop the students’ ability to self-organization and self-education on the basis of electing educational trajectory within the framework of the regulation of the learning process and taking into account the amount of knowledge in the form of credits.

3.2 These rules determine the order of student learning at the University on the Credit Education. Rules regulate the procedure of student registration on academic subjects, of the current, intermediate and final exam, as well as organizing the internship, transfer, reinstatement, dismissal, submitting of the state stipend, and assessment of students' knowledge, etc.

3.3 Rules are developed in accordance with the regulations specified in Section 1 of this Regulation.

3.4 Volume of an academic load of students is measured in credits and mastered during the school year for each discipline.

3.5 The number of academic disciplines is indicated in the curriculum of specialties. The amount of academic activities of students in each discipline is, as a rule, 3 credits (at least 1 - 2 credits). Each discipline is usually studied for one semester.

3.6 The Academic year consists of periods (semester), of the final exams, the final certification (for the final year), internship and holidays.

Academic period in KazNRTU consists of one semester 15 weeks and no less than 2 weeks of examination session.

3.7 Summer semester takes place in two modules; the duration of each is 6 weeks: 5 weeks of theoretical learning and 1 week - examinations.

A student may enroll for the maximum number of 8 credits in one module, if there is no overlap in the schedule.

The minimum number of students required for the opening of discipline in the summer semester is 8 people.

Summer semester is organized only on a fee basis for the following groups of students:

1) for those wishing to study the disciplines with a leading invited scientists and professors, including the experts from foreign countries, representatives of national and international companies, etc.;
2) for students with unsatisfactory marks («F»);
3) for the repetition of disciplines who wish to improve their GPA;
4) for transferred, reinstated, returned from academic leave students and having the difference in the curriculum.

3.8 Year (course) of leaning is determined by the number of credits accumulated theoretical and practical learning in accordance to the curriculum of the specialty.

The minimum period of study at the University for undergraduate programs is 4 years (3 years - on reduced educational programs - on the basis of college).

3.9 Holidays are available to students after each academic period. The duration of the total of vacation time in the academic year must be at least 7 weeks. If a student is enrolled in the summer semester, the duration of vacation time is correspondingly reduced.

3.10 The main criterion of completion of the educational process is the mastering by the students the number of subjects and the corresponding number of credits required by the curriculum of the specialty.

3.11 The student is obliged to observe the academic rules, attend lectures and all kinds of studies. In the case of absenteeism immediately inform of the reasons absence the Directorate of the Institute, Adviser any means (phone, fax, letter, email, etc.), and submit official supporting documents (certificates, documents of authorities etc.) As soon as possible, but no later than 3 working days from the day of entering the study.

3.11.1 The reasonable excuses of absence are:
- Absence due to serious illness (requiring hospital treatment lasting more than 2 weeks);
- In connection with the birth of a child;
- In connection with the death of close relatives;
- By reason of the business trip or training mission.
All of these reasons must be confirmed by supporting documents.
Medical certificates must be issued by the student health center, and certified by the chief physician of the medical Service center KazNRTU.

If a student is absent for a long time due to the serious illness of more than 4 weeks, the student must put in a certificate of the medical-advisory committee (MAC).

3.11.2 If a student has missed more than 20% of learning sessions on the subject (with supporting documents), then he will get the following assessments on the discipline:
1) «I » subject to the availability of 30 or more points for two midterms;
2) «F» if a student has less of 30 points for two midterms.

3.11.3 To prevent academic failure (including the purpose to preserve the state education grant), students, upon the occurrence of the cases referred to in paragraph 3.11.1 (a serious illness, childbirth, etc.) that could lead to a long absence learning sessions (more than 20%), recommended to take academic leave in the manner prescribed by the legislation of Kazakhstan and is listed in section 13 of this Regulation.

3.12 Students fulfilled the requirements of the curriculum of the year (course) learning and having the set level of the passing score, will be transferred to the next year (course) by the Rector's order.

3.13 Student transferred to the following year (course) but having the academic debt (debts) must retake the relevant disciplines in the next academic year, or in the summer semester on a paid basis.

3.14 Credits scored by student studying in foreign universities on the basis of international student exchange programs or educational partner programs of KazNRTU on disciplines corresponding to the curriculum of specialty, are counted in the prescribed manner.
3 THE EDUCATIONAL TRAJECTORY OF STUDENTS

4.1 The student builds its own program in the form of an individual curriculum (IC), drawn up in the framework of the curriculum and a specialty catalog of elective courses (CED). To master the appropriate level of education the student is obliged to fulfill their individual curriculum he has to gain the required number of credits according to the curriculum.

The student is responsible for the preparation of IC and the completeness of the course in accordance with the requirements of the curriculum of specialty.

4.2 IC is formed for each academic period with the help of advisor or head of Department. The main task of advisor is to provide student support in choosing the way of learning. Head of the graduating department advises students on the formation of their individual curriculum. List of advisors is approved by the order of the director of the institute.

4.3 In drawing up its IC student has to:
- Read the rules of the organization of educational process on credit technology;
- Respect the deadlines set of registration of the academic disciplines

4.4 The maximum number of credits included in the IC of student must match the number of credits established by the curriculum of specialty for the relevant semester.

4.5 The choice of elective courses and core subjects should be based on the vocational guidance of student and at its free choice; IC of a student may include disciplines of the core subjects for other specialties.

4.6 Student signs the prepared IC by the electronic signature in the portal of the university and gives it for the adviser’s approval.

Adviser, in the absence of comments, signs IC by the electronic signature too, and then he coordinates it with the Office Registrar Service employees (RO) in charge of the relevant institution, and submits for approval to the Director of the Institute. Then Director of the institute signs by electronic signature student IC. Term of signature of IC is no later than the second week of the semester.

The Office Registrar Service is monitoring the timeliness of the process of signing the IC.

4.7 The student has the right to vary the disciplines content of IC within the framework of the curriculum of specialty for elective courses (Elective) in the Add / Drop period. Elective courses catalog for each bloc of the curriculum is formed by departments; it is discussed at the Council of the Faculty and is approved by the Educational Methodical Council of the University.

4.8 Departments are required to provide advance students with complete information about the number of disciplines and a brief description of elective courses through advisors (leaders) before the start of the registration period.

4.9 Departments are required to place the description of the disciplines in the portal before the start of the registration period and place full of Educational methodical complex of disciplines since the first days of studies in each academic period (EMCD).
4.10 Credit technology gives much importance to Student Independent Study (SIS) and Teacher Supervised Independent Study (TSIS). A student must have skills of independent performance of individual assignments, course work and other research projects, case studies, etc. All kinds of independent work are described in the syllabus with specific tasks and assessment criteria. All types of learning activities are described in the guidelines with teacher requirements to implement them and assessment criteria.

Performed learning tasks by students should be in written form on paper and / or electronic format if other form is not provided by Syllabus.

4.11 TSIS are held within the office hours. The schedule of office hours is compiled by the Department on the basis of data provided by the teachers, and timetable of students, by agreement with students and Sector of timetable RO (for the determination / allocation of classrooms), approved by the Director of the Institute, than shall be posted on the bulletin boards of departments and indicated in the syllabus of teachers.

Number of office-hours: 4 contact hours per week for each full-time teacher (SIS and TSIS).

5 ACADEMIC COURSE REGISTRATION

5.1 Registration of students for the disciplines of the semester (Enrollment) is organized by OR with methodical and consultative assistance of advisors, departments and institutions. Dates of Enrollment are specified in the academic calendar.

5.2 Students are required an online enroll on the discipline in the terms established in the Academic calendar on portal of KazNRTU. Registration takes place on the principle of "all or nothing", i.e. Student must choose the total number of credits offered by the curriculum of specialty. Partial registration is not possible. Before registering on-line at KazNRTU portal, students need to read the instructions posted on KazNRTU portal.

5.3 Before the enrollment the student must refer to the advisors to draw up their individual curriculum. Adviser recommends and gives explanations to students on selected disciplines within the curriculum and elective courses catalog.

5.4 First year Students get acquainted with Credit Technology during orientation week, the timing of which is specified in the Academic calendar. At this stage, take place a meeting with directors of institutes, heads of departments, advisors and representatives of the administration. Each student of KazNRTU is assigned identification number, using which he can enter into the internal network of the portal.

5.5 Enrollment carried out in two stages:

- Stage 1 is formation an individual curriculum of student. Enrollment for the disciplines where the student will have the choice of discipline, language of teaching and he will see anticipated teacher in the disciplines description;

- Stage 2 consists of formation of students’ timetable. Students will make their schedule and they will have a possibility to choose a teacher, time and flow.

Reason for access to the internal network for newly admitted students in KazNRTU is:
- Order of admission in the number of students of KazNRTU;
- Payment for the semester (if the learning is carried out on a fee base).

Students of the 1 year get ready timetable of the first semester in the intranet portal of university. Registration for the discipline on the second and following semesters is made in the prescribed manner.

5.6 The rest of the students are registered for the next semester and retake at the end of each semester during the registration period, which is specified in the Academic calendar.

The reason for access to registration is the completion of all prerequisites required for the study one or another discipline.

By the beginning of the next semester a student forms his timetable of classes based on the registered subjects on the university portal.

5.7 Students are required to create the final version of the schedule during «Add / Drop» period (the first week of the semester). The students are strictly obliged to attend classes during the «Add / Drop» period.

In the first week of semester ADD / Drop, the student can change the discipline of elective courses, timetable and teacher. Student can make changes in timetable only through the Office Registrar Service. The student has to complete an application for a change of discipline or time of classes and handed over to the Office Registrar Service (application form is in the Intranet). The application will be reviewed and appropriate changes will be made in the student’s timetable.

Applications will be considered only in the period of «Add / Drop».

5.8 Late registration period is one week after the end of the period «Add / Drop». The Head of Department and the student’s adviser are responsible for timely registration. Late registration is allowed only to those students who have not enrolled in the deadlines set by the Academic calendar.

5.9 The student has to register for the number of credits provided by the curriculum of specialty.

The average number of credits that a student can take in the fall and spring semesters, must match the number of credits provided by the curriculum of specialty, and is usually 18 credits per semester (including retake).

Students transferred from other universities to KazNRTU, reinstated, returned from academic breaks have the right to register for the maximum number of 21 credits (+3 credits) per semester in order to eliminate differences in the curriculum, in coordination with the adviser, the Head of Department and the Director of the Institute.

5.10 Retake exists for students having academic debts and it is carried out only on a fee basis for all specialties and forms of tuition (state educational grant, KazNRTU grant, companies grant and various organizations, tuition). Registration for retake is carried out within the period of re «Add / Drop» according to the academic calendar.

5.11 Academic student flows are formed on the principle of a sufficient number of students who signed up for this discipline. The minimum required number of registrants for the core subjects are as follows: for the 1st year of study – 12, for elective courses the minimum are 10 students.

5.12 The correction of timetable of classes is permitted within 2 weeks since the beginning of the Academic period.

Before deadline the timetable of teacher can be changed.
Director of the appropriate institution gives permission to make changes in the teacher’s timetable. It is necessary to coordinate those changes with the Head of the department, the head of the Office Registrar Service and students registered to this discipline.

**6 TRACKING STUDENT ACHIEVEMENT**

6.1 Tracking Student Achievement is carried out in the form of verification of students' knowledge on the basis of various types of control assignments. It is divided into the current ((formative assessment), mid-term and final exam (summative assessment)

6.2 The current control (formative assessment) – systematic assessment of students knowledge which is performed by the instructor (teacher) during current classes in accordance with Syllabus

6.3 midterm examination – assessment, exercised during a given period of the semester. Midterm control is compulsory. The number of midterm examination is determined by the syllabus of discipline.

6.4 Final exam (summative assessment) – control of academic achievements of students carried out after completion of the discipline during the examination (intermediate examination)

6.5 Teacher carries out all types of monitoring and evaluation of the relevant knowledge in accordance with the academic calendar and syllabus.

The final grade of discipline includes the assessment of current progress, mid-term and final exam. Attendance of student is mandatory. Teacher monitors the student's attendance

Not later than 7 days after the lesson the teacher is obliged to fill in an electronic attendance journal in the University (web site) portal with current assessment of the current control and attendance information.

Electronic journal - an official document showing the attendance of student activities and progress. (grades)

Monitoring the timely complete (fill) of electronic journal by teacher provides the Head of Department, Office of the Registrar (Registrar’s office) conducting appropriate monitoring.

6.6 Midterm Examination is compulsory, it is carried out during the semester according to the disciplines syllabus. The form, content and number of intermediate (Midterm) examinations determines by the Teacher.

6.7 There are two assessments of students: the first assessment - on the 8th week of the semester, the second assessment - on the 15th week of the semester according to the academic calendar. Results of the 1st assessment (number of points scored by students on the assessment) are entered into an electronic attestation record after the assessment week no later than the ninth week of the semester. Results of the 2nd assessment are entered into an electronic attestation record after the assessment week no later than the 16-th week of the semester 2 days prior to the exam on the subject.

6.8 The period of the students final examl (summative assessment) referred to as examination session. The University determine a winter and summer exam session. It is given no more than 3 weeks for each session.

7 ASSESSMENT OF STUDENT LEARNING. GPA CALCULATION METHODS

7.1 Assessing student is carried out in accordance with a grade-rating letter system with an appropriate transfer to the traditional system of evaluation according to the scale below the students knowledge assessment, adopted in KazNRTU.

Teacher assess the exam's results in the examination sheet and put into "Registrar Office" portal database. Teacher Signed an examination sheet (paper) to provide it to the Registrar's office and later grades can not be changed. By taking into account the academic performance of students shall be based on the examination sheet of paper.

Students, are strictly prohibited unauthorized access to the teacher's computer, an electronic database of the University and other documents (magazines, statements, etc.) in order to increase grades (points), getting the correct test answers, and other unseemly and / or contradictory objectives of the established order. In the case of a disciplinary offense of such a student will be expelled from the University.

7.2 The final grade of discipline includes the assessment of current progress and final exam. Assessment of current performance (admission ranking) is 60% of the final assessment of knowledge discipline, and an estimation of the exam is 40% of the final assessment of knowledge discipline. Thus, the final score for each discipline is defined as the sum of the points scored by a student as a result of current and midterm control (admission rating maximum - 60 points) and exam (final control maximum - 40 points), and total - maximum 100 points.

Teacher are distributed points on various types of tasks. Each type of tasks should be assessed according to elaborated and presented in the syllabus assessment criteria clearly.

7.3 The positive final assessment is the basis for supplementing disbursed credit set number of credits on the appropriate discipline and recorded in a transcript of the student.

The final mark on discipline is not counted if student receives "unsatisfactory" assessments on the final exam.
